

## What is Checkstyle?

**Checkstyle “... a development tool to help programmers write Java code that adheres to a coding standard.”**

**is a free source code analysis tool helps to improve your code quality by checking with certain pre-configured standards.**

**Help programmer to write code that adheres to standard practice**

**Check verify the source code and shows errors that violate coding standard for the project**

Checkstyle is also available as a command line tool. If you have a different IDE other than Eclipse, plug-ins available for Netbeans, IntelliJ IDEA & etc.

If you interested on PMD Eclipse Plugin (another source code analysis tool), You can follow [PMD Eclipse Tutorial](#)

If you interested on Findbugs Eclipse Plugin (another source code analysis tool), You can follow [Findbugs Eclipse Tutorial](#)

If you interested on Sonar Eclipse Plugin (another source code analysis tool), You can follow [Eclipse Sonar Tutorial](#)

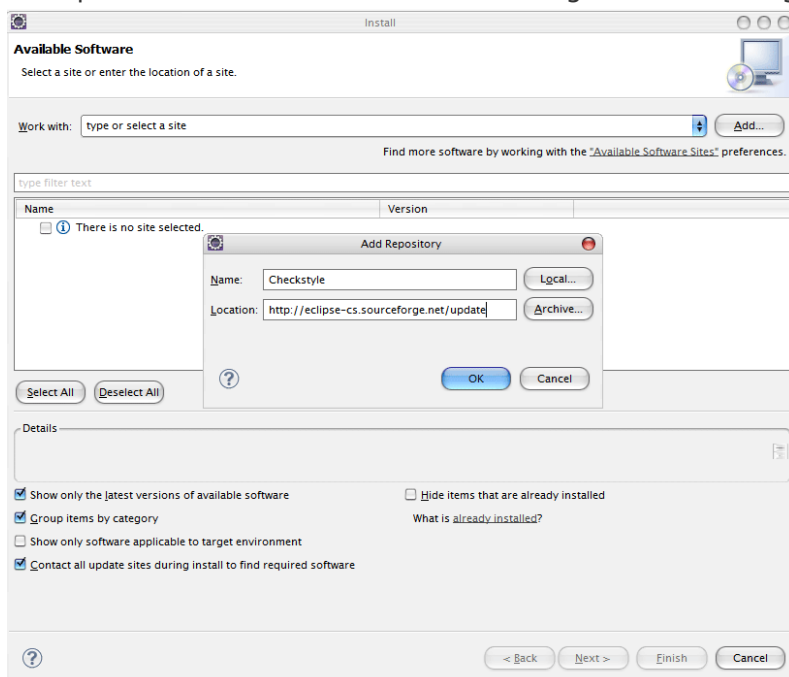

### **Checkstyle Tutorial**

1. [Eclipse 3.7](#)
2. [Checkstyle 5.6](#)

You can install the Checkstyle Eclipse plugin using Eclipse update manager from the following links

1. <http://eclipse-cs.sourceforge.net/update>  
**Checkstyle Installation**

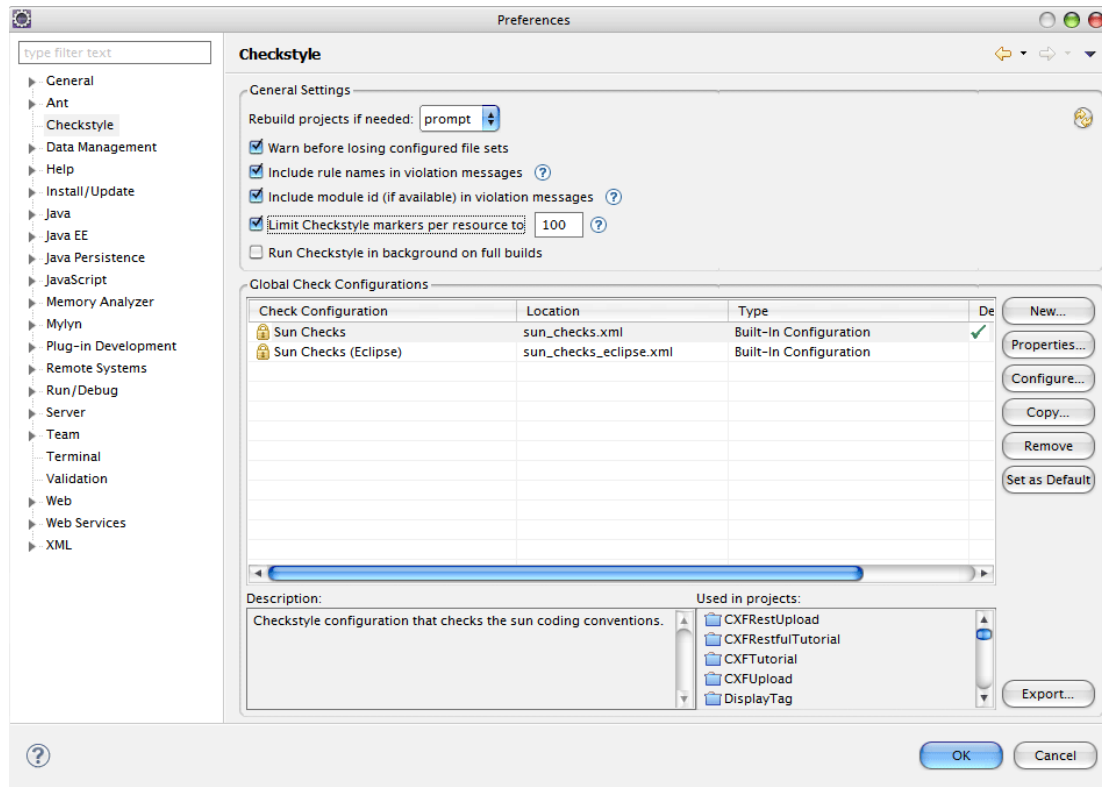

For Installing Checkstyle Plugin from eclipse, select **Help->Install New Software** Then click add, then provide Name and Location according to the following screenshot

Then select the Checkstyle version click next and accept the license details, it will install the Checkstyle

## Checkstyle Configuration

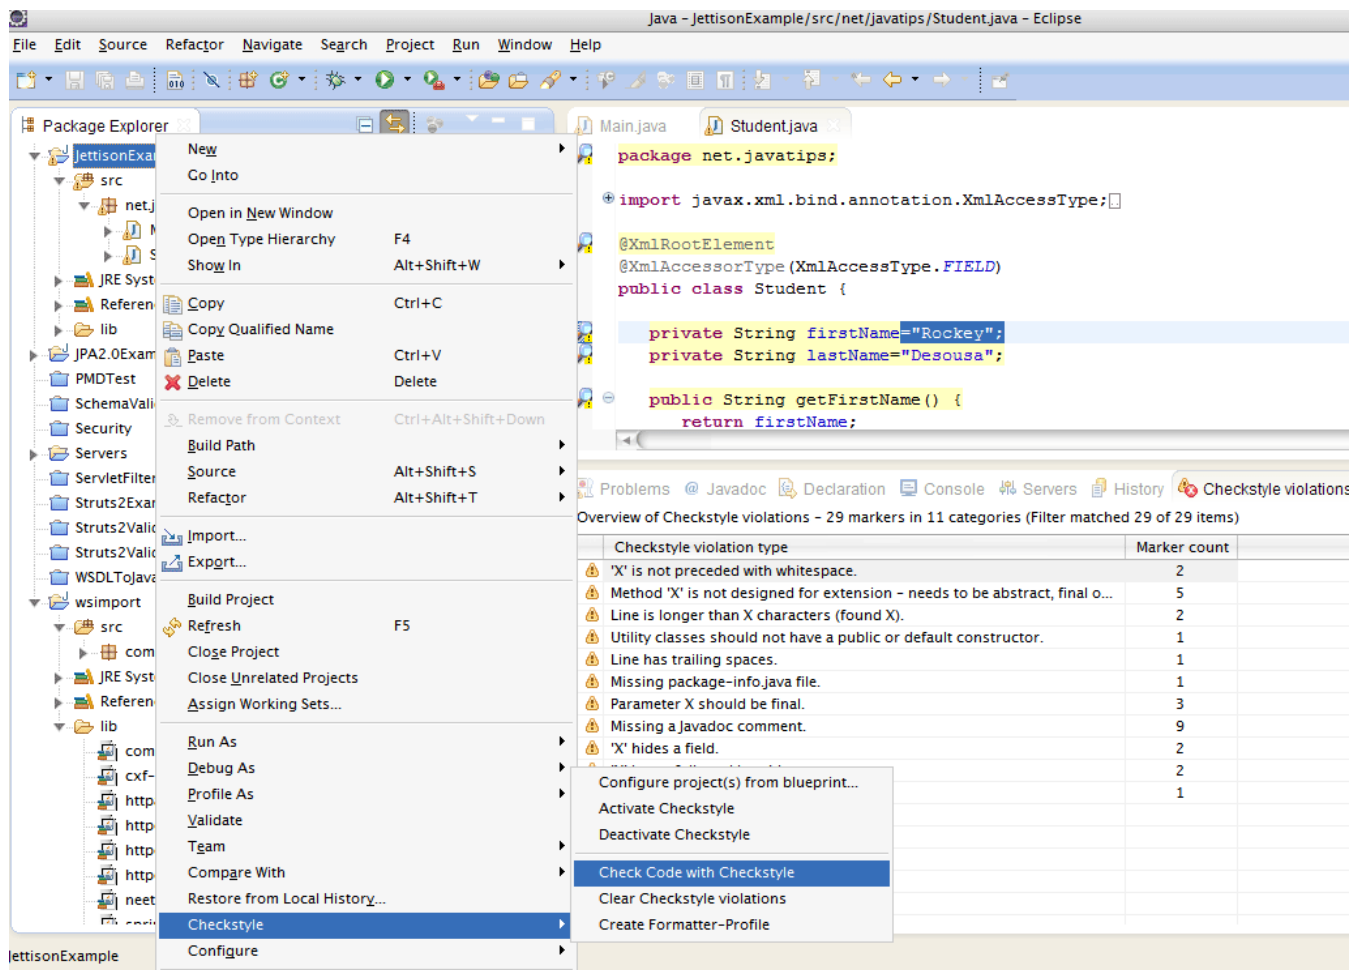

After install, you can configure Checkstyle from eclipse, **Window->Preferences->Java->Checkstyle**

## Using Checkstyle Plugin

You need to create a java project and add some class into src

Now, Build the project using **Project->Build Project**. Right click on the project, and run the Checkstyle according to following screenshot.

Now you can see a bug mark on the source code, Checkstyle violations will be shown ( You can also navigate to **Window->Show View->Other->Checkstyle->Checkstyle violations**). From Checkstyle violations tab, You can get more detailed description about this bug(See the below screenshot).
